Let the premier service of Swissair carry you to the premier X-C ski trails in the world.

Where else but the Alps can you step into touring tracks that lead you from village to village with the Matterhorn as a dramatic backdrop? Or take a cable car up to routes that overlook the Rhone Valley at nearly 10,000 feet? Or ski illuminated night trails that hug the sparkling Landquart River?

There are 17 world-class resorts in Switzerland, Austria and France just made for cross-country ski buffs. Like the 70 magnificent miles of trails at St. Moritz and 45 perfectly groomed miles in Davos. Not to mention *the* classic Alpine adventure, The Haute-Route, which stretches from Zermatt to Chamonix and can fill two entire weeks with mountain-touring memories.

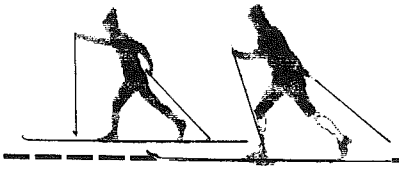

Apres-ski possibilities abound: moonlit sleigh rides through charming old villages, serious shopping at chic boutiques and bubbling fondues for two to share.

With land prices that range from $210 to $1814 per person for a one-week package, you can choose from a wide variety of accommodations. Swissair also combines destinations to make two-week, two-resort packages available. All guaranteed in U.S. dollars.

And cross-country ski connoisseurs should remember that Swissair flies to many sites of the 11 Worldloppet events—the largest, most challenging endurance races in the field of cross-country skiing.

Are You Getting Faster?

—by Steven Gaskill

With the very cold and slow snow this year at the American Birkebeiner, there were a lot of skiers who found themselves disappointed with their time. Following a hard year of training and a goal of improving, it can be very discouraging to have a slower time. Don't be disappointed, there is a better way to look at your time which might help you see the true result.

Consider using the method that the international skiers and the U.S. Team members use to see if they are improving. Compare your time to that of the winners as a percentage. By doing this you will throw out the snow speed factor. Here is how it works:

1. Convert your time to minutes (round to the nearest minute for so long of a race). Do the same for the overall winner (or average the top three finishers for your sex if you want to be fancy).
2. Do the same thing for past Birkies.
3. Now, divide the winner's time (in minutes) by your time (in minutes). Do the same thing for previous races. As the percentages increase, you are closer to the winner. When the number equals 100%, you are the winner.

EXAMPLE

Winner's time this year:	150 min.	= 77%
Your time this year:	195 min.	
Winner's time last year:	140 min.	= 76%
Your time last year:	185 min.	

Even though you might have been 10 minutes slower than last year, you actually improved. Now try it with the average of the top three. If you want to see how you are doing in your class, try the same thing with the average of the top three in your class.

Have fun and always look at the bright side of every performance.

American Birkebeiner Foundation Explores 'Team Birkie' Concept

You've been there, you've skied it, you've been a part of the greatest cross country skiing event in North America, the American Birkebeiner. In 18 short years the American Birkebeiner has come to represent the true spirit, rich history and exhilaration that is the essence of cross country skiing.

The American Birkebeiner Foundation has been approached by Steven Gaskill to start something equally exciting. Building upon the traditions of this unique race, the Foundation is considering assisting in creating a year round opportunity for our future stars which will provide the expertise and consistency conducive to the development of American champions.

The U.S. has not even come close to its potential in cross country skiing. Following a brief moment of light when Bill Koch was a world leader, the U.S. has been unable to produce consistent international results. Now, with your help, we can start a development program with consistency and direction for the top skiers in the midwest by providing a series of quality training opportunities close to home.

The program would include physical training programs, physiological testing, sport psychology, and technical coaching. In addition to working with elite athletes and their home coaches, Team Birkie would work, through a series of educational and practical programs, to increase the knowledge and skill of all coaches in the midwest.

Team Birkie would be run by three-time Olympic coach Steve Gaskill, who brings to the program 15 years of coaching involvement and innovation with the sport of cross country skiing, ranging from youth programs to an international level.

Athletes eligible for the program would include top high school and college skiers, midwest U.S. Ski Team members, and elite skiers with the potential for international excellence.

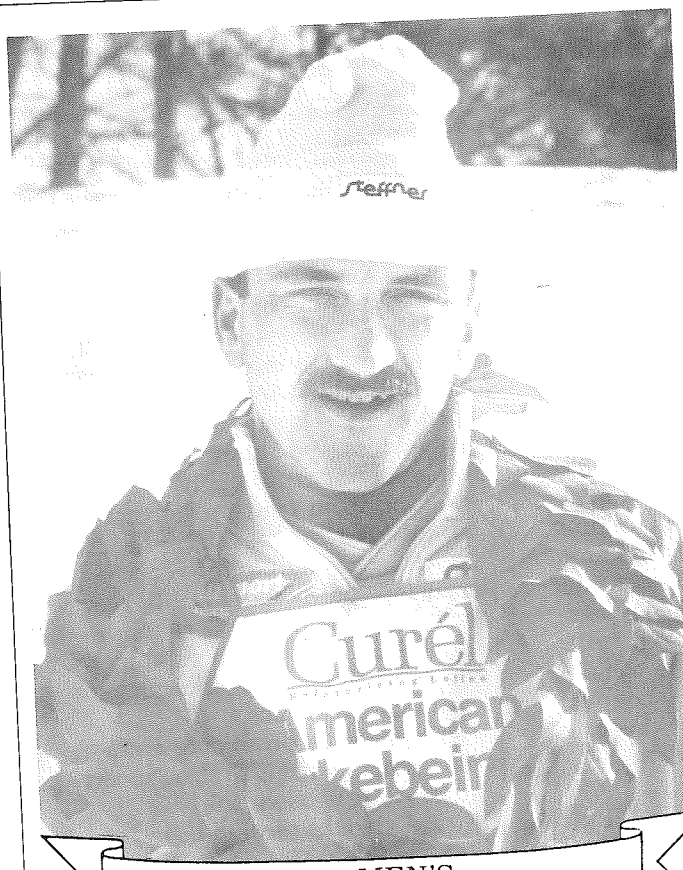

The road to producing a champion starts with a first supportive step. As proposed, the "Team Birkie" would receive base funding from the American Birkebeiner Foundation, but the bulk of the funding would come from interested corporate and private sponsors.

Details are being worked out as we go to press. Watch for a special mailing soon and other details in the June issue of the *Birch Scroll.*

The "Team Birkie" concept is being explored as another way for the American Birkebeiner Foundation to meet its goals of supporting cross country skiing.

PowerBar

Fuel for Optimum Performance

1.
It's not a candy bar. We spent three years on research and development to make PowerBar a delicious, easy-to-digest sustained energy food with all the nutrients that human beings need to perform at their best. Contains **no oils or added fats.**

2.
In two years on the market, PowerBars have become the rage among the best skiers, cyclists, runners, triathletes, climbers and boardsailors in the world. They work!

3.
PowerBars are durably wrapped in mylar and won't melt, break or crumble if carried in a pack or pocket under adverse conditions. However, they're water-based, not fat-based, so they *do* freeze. Keep them close to your body to retain the soft, chewy texture when skiing.

Available at outdoor and health food stores, including Nutrition World. Call toll free for the location of your nearest dealer.

CONGRATULATIONS BIRKIE SKIERS!

You have accomplished **the ultimate** in American cross country events. Now you can own **the ultimate** in mementos for your feat.

For the **first time** in 18 years, the U.S. Postal Service **commemorated** the Birkie by authorizing a **special pictorial cancellation** in **both Hayward and Cable.**

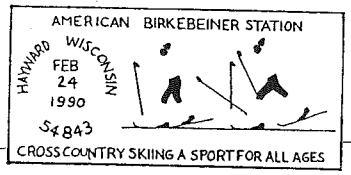

A white linen envelope is **now available** postmarked in Hayward the start, or Cable the finish. Each is franked with cross country related or Norwegian related stamps. Each envelope is also rubber stamped with a depiction of the Birkie trail.

Your special envelope can be personalized with your name and bib number if you so desire. Personalizing will be done by the artist who designed the pictorial cancellation and the rubber stamp artwork.

Envelopes are available with stamps relating to occupation, nationality, state, or country of origin. Please indicate your preference if so desired.

Also available are four envelopes carried by a Birkie skier, as well as a special set of 12 enveloped with ski related stamps and original hand-drawn artwork relating to each country in the Worldloppet League. One has all 11 countries stamps.

Please write for copies and prices.
